KNOW-HOW & TECHNOLOGY

SEC Smart Energy Control

Distribuzione uniforme nel tempo dei cicli di accensione e spegnimento delle termoresistenze in modo da ottenere una diffusione costante del vapore.

Evenly spaced on/off periods for the heating elements to obtain even steam distribution throughout the session.

SBC Smart Boiler Cleaning

Diluizioni e risciacqui intermedi calcolati sul reale fabbisogno per ridurre l'accumulo di calcare e aumentare la durata della caldaia senza manutenzione.

Dilution and intermediate rinsing processes not time controlled but based on real need to reduce limescale deposits and avoid frequent boiler maintenance.

SWF Smart Water Filling

Gestione ottimizzata di riempimento caldaia, risciacqui intermedi e svuotamento. Le resistenze lavorano sempre in maniera ottimale.

Optimised management of boiler filling, intermediate rinsing and emptying process. Heating elements programmed for optimum operation.

ECC Effe Comfort Control

Il sistema è integrato nel generatore di vapore Effe e consente di gestire a distanza il bagno turco tramite l'App Effe ECC su tablet o smartphone.

This system is built into the Effe steam generator, enabling remote control of the Turkish bath from a tablet or smartphone using the Effe ECC app.

PSF Power Steam Function

L'innovativo sistema di gestione della ventilazione minimizza la stratificazione delle temperature all'interno della cabina, grazie ad una ventilazione controllata.

The innovative ventilation management system minimises temperature layering inside the cubicle by controlling ventilation.

RWF Regulating Water Flow

Il generatore può lavorare dentro un ampio range di pressione dell'impianto idrico del locale: da 0,2 bar a 10 bar.

The generator can work on a wide range of water systems with different pressures, from 0.2 bar to 10 bar.

ODS Open Door Sensor

Il sistema è in grado di bloccare automaticamente l'erogazione del vapore in caso di prolungata apertura della porta del vano hammam.

The system automatically interrupts steam distribution when the door of the Hammam is left open for a long time.

STYLISH

Effe steam generators are compact and stylish, designed to adapt perfectly to almost any environment and décor.

EASY TO INSTALL

Effe supplies a perfectly designed outer casing for quick connection to the water and electrical mains.

ELEGANTE

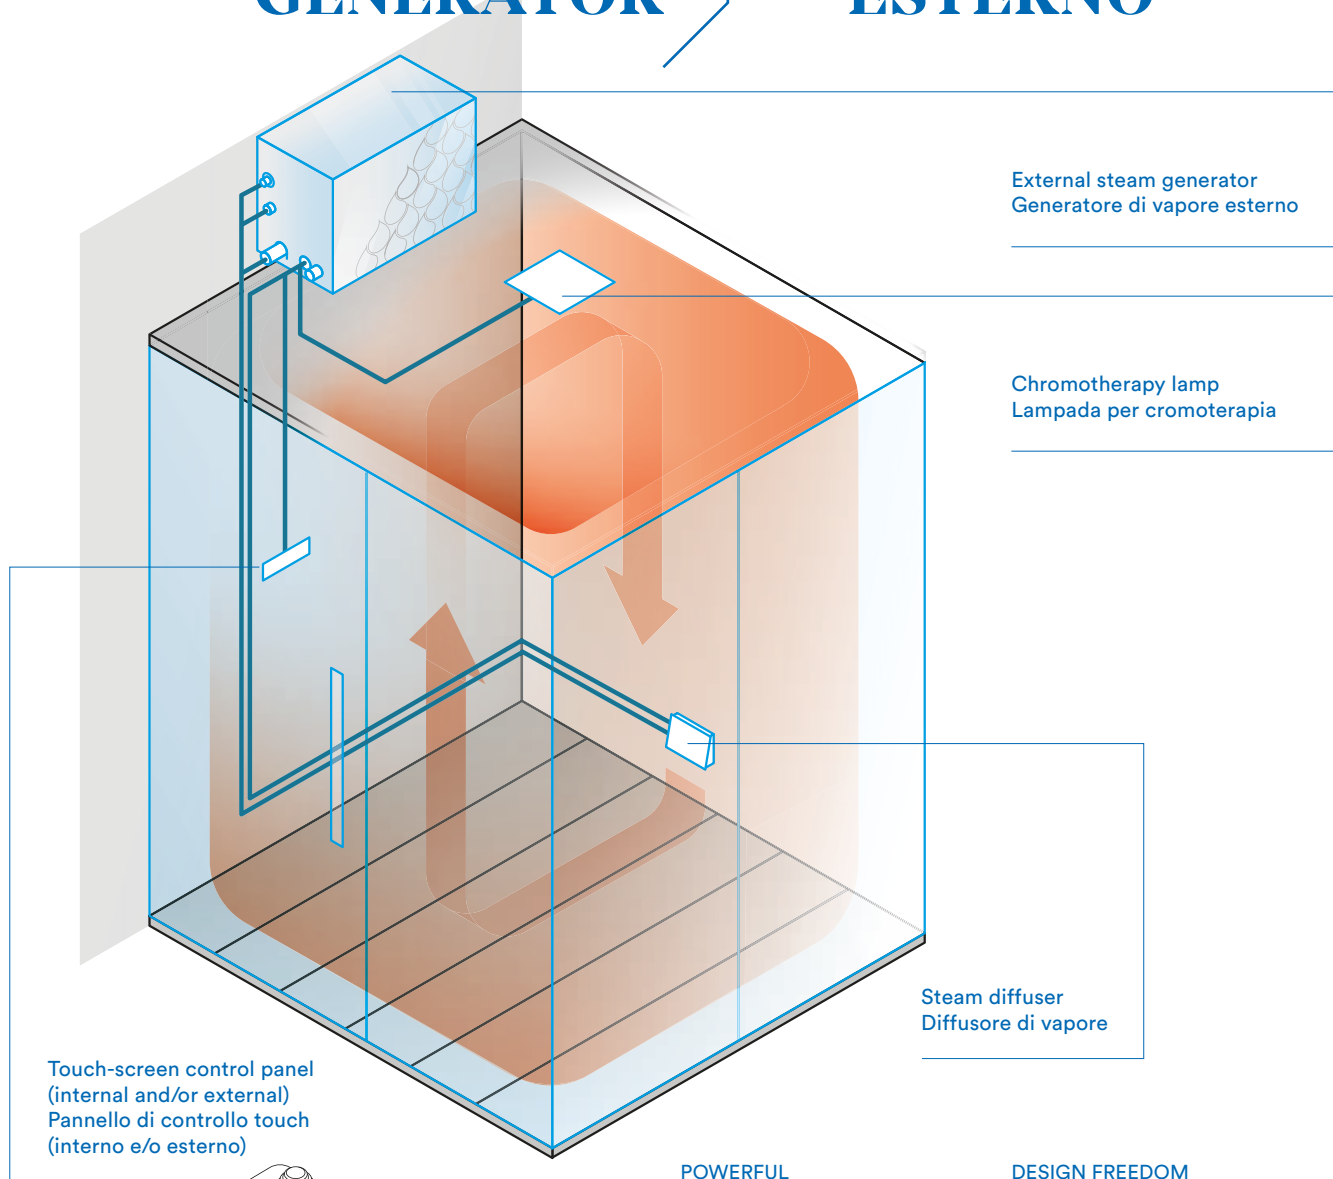

I generatori di vapore Effe sono compatti ed eleganti: il design razionale li rende adatti all'applicazione in qualsiasi ambiente.

FACILE DA INSTALLARE

Effe fornisce una controcassa perfettamente organizzata, per un veloce collegamento alle tubature e alla rete elettrica.

EXTERNAL STEAM GENERATOR

POWERFUL

The external Nuvola Smart Power steam generator enables more powerful motors to be fitted for use in much larger spaces.

DESIGN FREEDOM

The external generator can be installed in a hidden space, for total Hammam design freedom.

POTENTE

Il generatore di vapore esterno Nuvola Smart Power permette l'utilizzo di motori più potenti e quindi l'utilizzo per spazi molto ampi.

PULIZIA FORMALE

Il generatore esterno può essere installato in un vano nascosto, lasciando completa libertà nel design dell'hammam.
